

**Hitachi Ex3600-5 Excavator Workshop Service Repair Manual** The compartment floor slides down to lower a drum for simple, easy replacement. Centralized position means that inspection and maintenance can be performed quickly and easily. A walkway around the entire counterweight provides easy access to key rear areas.

This means faster and safer inspection and maintenance. Gives the operator a clear view, even when a large 200 US-ton class dump truck is being loaded. This high height and forward-sloping cab provides a view that boosts productivity. The ergonomic layout of the cab means the operator will do less stretching and reaching when operating. This adds up to less operator fatigue and greater operating efficiency.
